

REGULATIONS FOR RESIDENTIAL SOLID WASTE COLLECTION

Dear Milford Residents:
We are pleased to provide you with this new guide to our solid waste and recycling services provided by the town of Milford's Board of Health. Thanks to you, our community has been able to recycle thousands of tons of material that would have normally ended up in the incinerator. This has saved our community and our environment a great deal. Your cooperation to improve recycling efforts in your home will always be appreciated. We have made some changes to our curbside waste collection program and at the transfer facility. Please review these sections.

For more information, please call the Board of Health at 634-2315.
